

ENTERGY LOUISIANA, LLC
ELECTRIC SERVICE

RIDER SCHEDULE UMS-5

Effective Date: January 31, 2006
Filed Date: January 23, 2006
Supersedes: UMS-4 filed 6/30/05
Schedule Consist of: Two Pages

UNMETERED SERVICE RIDER SCHEDULE TO SCHEDULE GS

I. AVAILABILITY

At all points throughout the territory served by the Company (except the Fifteenth Ward of the City of New Orleans) where facilities of adequate capacity and suitable phase and voltage are adjacent to the premises to be served, and service is taken according to the Service Standards and Service Regulations of the Company. Where facilities of adequate capacity and suitable phase and voltage are not adjacent to the premises to be served, Company may, at its option, require a contribution, higher minimum bill, facilities charge, or other compensation to make service available.

II. APPLICATION

This rider is applicable to electric service required by Customers who contract for unmetered electric service under Schedule GS to billboards, unmetered telephone services, telephone booths, railroad signals, cathodic units, traffic cameras or for community antenna systems' pole mounted power supplies, amplifiers, and related incidental equipment, hereinafter referred to as equipment, or other such equipment where metering is not feasible or economical.

Summary bills to the Customer may, at the Company's option, be rendered for multiple points of service; however, each point of service will be billed individually.

All provisions of Rate Schedule GS shall apply except as modified below:

NET MONTHLY BILL

For the purposes of this rider, the Net Monthly Bill under Schedule GS will be modified as follows:

- (a) The Customer Charge will be \$4.86. CR
- (b) The Minimum amount will be \$4.86 plus \$3.66 for each kW over 3 kW of the highest Demand estimated by the Company during the 12 months ending with the current month, plus any applicable adjustments. CR

BILLING DEMAND

For purposes of this rider, the determination of Demand under Schedule GS is modified per conditions of service below.

III. TYPE OF SERVICE

Alternating current, 60 cycles, single phase, and at one standard voltage as described in Company's Service Standards.

IV. CONDITIONS OF SERVICE

1. At the time Customer contracts for service under this Rider Schedule UMS, Customer shall provide Company with a written inventory of all equipment at each point of service for which Customer requests service under this Rider, which inventory shall include the type and nameplate rating for each piece of equipment. The billing energy for each point of service will be determined by the Company's estimation of the kWh usage based on the type, rating, and quantity of the equipment from the inventory provided by Customer.
2. Customer will update its inventory by informing the Company in writing of changes in type, rating, and/or quantity of equipment as such changes occur, and billings will be adjusted accordingly.
3. Company may, at its discretion, test meter the load of various types and ratings of Customer's equipment to the extent necessary to verify the estimated kW and kWh usage used for billing purposes and, where dictated by such test metering, Company will make prospective adjustments in estimated usage for subsequent billing purposes; however, Company shall be under no obligation to test meter the load of Customer's equipment and Company's decision not to test meter the load of Customer's equipment shall not release Customer from the obligation to provide to Company, and to update, an accurate inventory of the types, ratings, and quantities of equipment upon which billing is based.
4. Upon Company's request, but no later than the anniversary date on which Customer first takes service under this Rider, Customer shall provide an updated inventory of all equipment at each point of service.
5. Company shall endeavor to inspect the equipment at each point of service annually as close to the anniversary date of the contract as is practical, and make prospective adjustments in billing as indicated by such inspections; however, Company shall be under no obligation to conduct such inspections for the purpose of determining accuracy of billing or otherwise. Company's decision not to conduct such inspections shall not release Customer from the obligation to provide to Company, and to update, an accurate inventory of the types, ratings, and quantities of equipment upon which billing is based.
6. As this service is unmetered, Customer agrees to pay amounts billed in accordance with the current inventory, regardless of whether any of the installations of Customer's equipment were electrically operable during the period in question and regardless of the cause of any such equipment's failure to operate.
7. The minimum demand for any service location shall not be less than ten percent of the electrical capacity required to serve Customer's load at such location.
