**INTERRUPTIBLE POWER SERVICE
 RIDER SCHEDULE 2 TO RATE SCHEDULE LIS-17A
 Code #30 (Algiers)**

APPLICATION

This Rider Schedule is applicable, subject to the terms and conditions hereinafter set forth, to additional service in conjunction with Firm Power Service to Customer under Rate Schedule LIS-17A, when prearrangement has been made for the installation of facilities of adequate capacity and suitable phase and voltage adjacent to the premises to be served. All service is supplied at one location and at the voltage prescribed in Rate Schedule LIS-17A so as to permit delivery and metering of the total service at a single point of delivery and by a single metering installation.

All provisions of Rate Schedule LIS-17A shall apply except as modified herein.

INTERRUPTIBLE POWER SERVICE

Interruptible Power up to the amount stipulated below may be supplied when, as and if Company, in its judgment, has such power available for the sale but only to customers having generating equipment adequate to supply the amount of Interruptible Power contracted for.

NET MONTHLY BILL

\$3.90 per kW per month for all Interruptible Demand.

Minimum:

The sum of:

- (1) The charges for the Firm Demand effective during the current month;
- (2) The charges for the Interruptible Demand effective for the current month; and
- (3) Any applicable adjustments.

Adjustment:

Second - Plus .001 cent per kWh used during the month for each .001 cent of the average (for Firm energy) and non-base (for Non-Firm energy) fuel cost per kWh as delivered to Company's customers during the second preceding calendar month, adjusted for any over or under collection as set forth in Rider FCA-5.

DEMAND

Notwithstanding the provisions of the "Demand" Section of Rate Schedule LIS-17A, for so long as this Rider Schedule 2 is applicable, the "Demand" pursuant to Rate Schedule LIS-17A shall be as follows:

Firm Demand

(A) When Interruptible Power is not being supplied:

The Firm Demand shall be the average kW supplied during the three 15-minute periods of maximum use (each determined on a separate day) during the month.

(B) When Interruptible Power is being supplied:

The Firm Demand shall be the average kW supplied during the three 15-minute periods of maximum use (each determined on a separate day) during the month less the Interruptible kW supplied.

(C) When both conditions (A) and (B) occur during the month:

The Firm Demand shall be the average kW supplied during the three 15-minute periods of maximum use obtained after deducting any Interruptible kW actually supplied. Each 15-minute period shall be determined on a separate day during the month. Under either (A), (B), or (C) the Firm Demand shall never be less than:

1. 70% of the highest Firm demand (excluding any Firm demand resulting from Customer's failure, during the Off-Peak season as defined by Company, to reduce its load to its Designated Firm demand; but including any Firm demand resulting from Customer's failure, during the On-Peak season as defined by Company, to reduce its load to its Designated Firm demand) established in the preceding 11 months;
2. The minimum kW specified in the Electric Service Agreement; or
3. 2,000 kW.

Interruptible Demand

The Interruptible Demand shall be the average kW supplied during the three 15-minute periods of maximum use (each determined on a separate day) during the month, less the Firm Demand effective for such month, but not more than the rated capacity of Customer's on site generating facilities or the kW as set forth in the accompanying Rider Agreement, whichever is less.

Off-Peak Demand

When Firm Off-Peak Service is being supplied, the Firm On-Peak will be determined as defined above during the On-Peak hours and the Firm Off-Peak will be determined in a similar manner during the Off-Peak hours.

rkVa Demand

The rkVa Demand shall be the average rkVa supplied during the time of the maximum kW demands (including Interruptible Power) and the amount to be billed as excess shall be the amount in excess of 25% of the total kW Firm and Interruptible Power.

When Firm Off-Peak Service is being supplied, the rkVa and the total kW demands during the Off-Peak hours shall be increased by one-third of the excess rkVa and total kW, respectively, during the On-Peak hours (including Firm On-Peak, Firm Off-Peak and Interruptible Power).

NOTICE FOR INTERRUPTIBLE POWER

Interruptible Power, to the extent available at the Customer's premises, will be made available and discontinued by the Company at its sole discretion. Interruptible Power will be discontinued upon giving Customer verbal notice because of or as a result of emergency conditions, however, Company will give at least 6 hours notice before discontinuing Interruptible Power under normal operating conditions. If Customer thereafter fails to reduce its load to its designated Firm Demand, the highest 15-minute Demand established for each billing month during the period of interruption shall be billed as Firm Demand for that billing month; provided, however, that if during the On-Peak season (as defined by Company), Customer thereafter fails to reduce its load to its designated Firm demand, the highest 15-minute demand established at that time shall be treated as the highest Firm demand previously established for purposes of computing Firm demand pursuant to Paragraphs 1 and 2 of the DEMAND section of this Rider Schedule 2.
