**TEMPORARY AND SHORT TERM SERVICE
 RIDER SCHEDULE C-9 (Algiers)**

AVAILABILITY

At all points in the Fifteenth Ward of the City of New Orleans (Algiers), where facilities of adequate capacity and suitable phase and voltage are available in the vicinity, and service is taken according to the Service Standards and Service Regulations of the Company.

The supplying of service at any point of delivery shall in no way obligate the Company to leave in place any facilities temporarily installed, to furnish additional service at such point of delivery or service at another point of delivery, or to extend or renew any service agreement after a period of discontinuance of use. Each application for service and period of use in a separate transaction determined by availability of capacity at the location at the time, and by the need for temporary facilities.

APPLICATION

To any Customer served under the Small General Service rate schedule available at the location, whose use of service is temporary in nature or is for a term of less than that specified in the rate schedule or in the Electric Service Agreement.

Customer will, upon request by Company, curtail his use of service at times of peak load of Company's system to the extent and during the hours specified by Company from time to time on not less than 6 hours notice, but such curtailment will not be required for more than 10 hours in any one day.

Not applicable to Standby or Supplementary Service.

All provisions of the rate schedule with which this rider schedule is used will apply except as modified herein.

BILLING

The Net Monthly Bill will be an amount computed under the Small General Service rate schedule for the Demand established and the kilowatt-hours used during the current month and the Minimum will be an amount computed on the basis of the Demand established during the current month, but not less than the amount specified in the Service Agreement.

Bills will be prorated for a period of less than one month only at the beginning and on termination of the Service Agreement. The minimum billing period is one month and the total billing shall be at least \$20.12 for each period service is rendered.

CONNECTION COST

Customer will pay Company in advance each time application is made for service the estimated cost of extending lines, erecting transformers, installing metering equipment and doing any work to supply service, except where the installation of only a self-contained meter will provide service. Cost will include labor, materials, equipment, transportation and supervision of furnishing, installing and removing any necessary service facilities, less the estimated salvage value of such facilities on removal.

When the use of service is discontinued or the Service Agreement is terminated, Company will dismantle such facilities and the materials and equipment temporarily provided by Company will be salvaged by Company and remain its property.

By location of the point of delivery, all or any part of the service facilities that are located on property owned or controlled by Customer may be owned and maintained by Customer, as mutually agreed upon between Company and Customer.
