Effective: March 31, 1997
 Filed: March 14, 1997
 Supersedes: Rider D-7 (Algiers)
 filed 7/19/95

**SEASONAL AND INTERMITTENT ELECTRIC SERVICE
 RIDER SCHEDULE D-8 (Algiers)**

AVAILABILITY

At all points in the Fifteenth Ward of the City of New Orleans (Algiers), where facilities of adequate capacity and suitable phase and voltage are adjacent to the premises to be served, and service is taken according to the Service Standards and Service Regulations of the Company.

Where the Customer contracts to take service under this rider schedule for a term of one year or longer, with periodic renewals for similar periods, the existing facilities or any new facilities made available by line extension agreement with Customer will be left in place to serve the Customer throughout the term of the Service Agreement.

APPLICATION

To any Customer served under the Small General Service rate schedule available at the location, whose electric service requirements are limited to certain months of the year or vary greatly from month to month so that Customer would pay less for service on an annual basis under this rider schedule than under a term agreement and the regularly applicable rate schedule; except where another rate schedule is specifically provided for the class of service taken by Customer.

Not applicable to short term, temporary, breakdown, standby, or supplementary service.

All provisions of the rate schedule with which this Rider Schedule is used will apply except as modified herein.

BILLING

1 - The Net Monthly Bill will be an amount computed under the Small General Service rate schedule for the Demand established and the kilowatt-hours used during the current month and the Minimum will be an amount computed on the basis of the Demand established during the current month. In months when no service at all is used and the facilities are disconnected, the Minimum will be waived entirely.

2 - To the Net Monthly Bill for each of three consecutive months during each contract year there will be added a facilities charge of \$3.54 for each kW of the maximum capacity specified in Customer's Electric Service Agreement (or the highest Demand previously established, if that is greater) but not less than 6.67% of the gross construction cost of the local facilities installed by Company to serve Customer. During each contract year, this facilities charge will begin with the first month in which service is used, and when no service has been used during the contract year to date it will begin with the tenth month of the contract year.

3 - From the Net Monthly Bill there will be deducted a credit of \$0.89 for each kW of Demand billed for the current month.

REMOVAL OF FACILITIES

If Customer is not using service or is only partially using service, Company may, after notice to Customer, remove any of its transformers and other equipment (other than structures and conductors), or may substitute other equipment for that which is being only partially used by Customer. In either event, Company will furnish and install, at its expense, the same or equivalent equipment, or any needed substitute equipment, at the time Customer notifies Company of his desire to resume taking service.

CONTRACT PERIOD

This contract shall be for a minimum period of one year, and at Company's option, may be longer to justify the investment in electric facilities.
