 Schedule Consists of: Two Pages

**EXPERIMENTAL RIDER TO SCHEDULE LPS
 FOR SURPLUS POWER DURING SUMMER MONTHS**

I. APPLICABILITY

This rider is applicable under the regular terms and conditions of the Company to Customers with self-generation existing prior to June 29, 1990, where such self-generation's output is limited by hot weather. Customer must contract for electric service for the months of June-September and may not contract for more than the maximum derate (kW) of self-generation facilities nor less than 1,000 kW of electric power under Schedule LPS. Customers contracting for service under this rider must do so prior to May 1 of each year and may not also contract for firm power from the Company at the same location under another contract. Company is not obligated to make any investment in facilities to serve this load. Service under this rider may not be purchased in lieu of Standby and/or Maintenance Service.

II. AVAILABILITY

Service under this rider is available only during the billing months of June-September in any year in which the Company's projected annual percent capacity margin is 18% or greater. In any calendar year, when the capacity margin is projected to be less than 18%, service under this rider may not be available for that year.

III. MODIFICATION TO RATE SCHEDULE LPS

- A. § I. Applicability is modified to reduce required minimum level of contracted kW from 2,500 kW to 1,000 kW.
- B. § VI. Determination of Billing Load is modified to the extent that the kW of Billing Load will be the greater of the following:
 - 1. The Customer's maximum measured 30-minute demand during any 30-minute interval of the current billing month; or
 - 2. 1,000 kW
- C. § IX. Use of Service is modified to eliminate the first sentence.

References to off-peak provisions in Schedules LPS are not applicable to this rider, however all other provisions of Schedules LPS, except as noted above, are unchanged.

IV. CONDITIONS OF SERVICE

- A. When Customer's generating equipment is operated in parallel with Company's system, suitable relays, control and protective apparatus will be furnished and maintained by Customer in accordance with specifications agreed to by Company, and subject to inspection by Company's authorized representatives at all reasonable times.

- B. During the time power is being purchased under this rider, Customer will not supply power, into Company's system. Unintentional or incidental flow into Company's system will not be measured. Company may install ratchets or equivalent devices to prevent reverse registration.
- C. Customer must demonstrate, if requested to do so by the Company, that the power taken under this rider is as a result of deration of customer's generation due to hot weather.
- D. If, during any period of time that service is being provided under this rider, it becomes necessary for Company to effect a reduction in load and energy, service provided under this rider will be considered low priority.
