

ENTERGY GULF STATES, INC.
 ELECTRIC SERVICE
 Louisiana
 SCHEDULE SSTS

Section No.: III
 Section Title: Rate Schedules
 Revision: 3 effective 9-28-05
 Supersedes: SSTS Revision 2 effective 6-2-03
 Schedule Consists of: Two Pages

EXPERIMENTAL SUPPLEMENTAL SHORT TERM SERVICE
 (Closed to New Business and Limited to Amounts in Contracts as of June 2, 2003)

I. APPLICABILITY

This rate is applicable under the regular terms and conditions of the Company to Customers who have received firm electric service from the Company during the immediately preceding 24 months and who contract for not less than 5,000 kW of additional load above their present requirements. This rate is not applicable to additional kWh resulting from load shifting. The Company is not obligated to make any investment in facilities to serve the additional load. This rate is not applicable in conjunction with Time-Of-Day Rates. Service under this rate may not be purchased in lieu of Standby and/or Maintenance Service.

II. AVAILABILITY

Service under this rate is available in any year in which the Company's projected annual percent capacity margin is 18% or greater. In any calendar year when the capacity margin is projected to be less than 18%, service under this rider may not be available for that year.

III. NET MONTHLY BILL

Average monthly fuel and purchased power cost per kWh plus \$0.00712 for all additional kWh used above "base amount" as defined in § V below.

CR

Company will estimate average monthly fuel and purchased power cost for the next month and inform Customer, in writing, of this estimate no less than five (5) days prior to the beginning of the billing month. Customer will, upon receiving Company's estimate, inform Company, in writing, by last day of month prior to the beginning of the billing period, the amount of additional load to be taken during the next month. The Customer will be billed based on the actual fuel and purchased power cost for the month. The Company is not liable for any variations between the estimated and actual costs.

IV. MINIMUM CHARGE

In any month when service is requested in accordance with the provisions stated in § III above, the net minimum charge for such usage will be 150 hours times the requested additional load (kW) times the charge per kilowatthour in § III above. Where the installation of excessive new facilities is required or where there are special conditions affecting the service Company may require, in the contract, a higher minimum charge or facilities charge arrangement to compensate for additional costs.

V. CONDITIONS OF SERVICE

Prior to service being rendered under this schedule, Company will determine the average monthly kilowatthours (excluding Schedules MSS and SSTS) taken by Customer from Company for the six billing months ending with the date service is taken under this rate. This monthly average will be designated as the "base amount" for firm service and all kilowatthours taken in a billing month in excess of such "base amount" will be billed under this schedule. The firm service billing load (kW) for the current month will be the total adjusted load (kW) reduced by the amount of kW requested under this Schedule, but in no case will the firm service billing load (kW) for the current month be less than the firm service billing load (kW) for the corresponding month of the previous year.

VI. USE OF SERVICE

Customer shall not resell or share any energy purchased under this rate.

VII. GROSS MONTHLY BILL AND PAYMENT

The gross monthly bill for service furnished for which payment is not made within twenty days of the billing date shall be the Net Monthly Bill, including all adjustments under the rate schedule and applicable riders, plus 5% of the first \$50.00 and 2% of any additional amount of such gross monthly bill above \$50.00. If the monthly bill is paid prior to such dates, the Net Monthly Bill, including all adjustments under the rate schedule and applicable riders, shall apply.
