FERC INTERRUPTIBLE ORDER RETAIL EFFECTS RIDER

I. APPLICABILITY

This FERC Interruptible Order Retail Effects Rider ("Rider FIORE") is applicable under the regular terms and conditions of the Company to all customers served under any retail electric rate schedule,* whether metered or unmetered, and/or rider schedules* subject to the jurisdiction of the Louisiana Public Service Commission ("LPSC" or "Commission").

II. NET MONTHLY RATE

In accordance with Attachment A to this Rider FIORE, Net Monthly Bills for electric service shall be adjusted pursuant to ELL's July 2009 Application to Flow Through to Retail Rates the Retail Effects of Credits and Payments Resulting from FERC Opinion Nos. 468 and 468-A and Related Orders (the "FERC Orders"), as finally approved or determined by the Commission or a court of competent jurisdiction. Initially, as shown on the Attachment A to Rider FIORE that is to become effective July 30, 2009, a credit will be applied to customer bills to flow through the payments and credits resulting from the FERC Orders that were made and received pursuant to the September 2005 and October 2007 Intra system Bill ("ISB") revisions, and that have not already been flowed through to retail rates. If future adjustments to monthly bills are required as a result of future FERC or court rulings relating to such Orders, including future rulings relating to the Section 206 Refunds ordered by the FERC that were implemented through the September 2008 ISB revisions, then Attachment A to Rider FIORE would be updated to effect those adjustments through an appropriate credit or charge, in a reasonable and timely manner, as finally determined by the Commission or a court of competent jurisdiction.

III. FIORE RIDER TRUE-UP

At the end of the effective billing period as shown on Attachment A, the amount actually refunded or collected through Rider FIORE will be compared to the total amount to be refunded or charged to customers pursuant to Attachment A (including interest or carrying charges) to determine any net over- or under-refund/recovery of the Rider FIORE. Any net over- or under-refund/recovery shall be included in the fuel adjustment in the fourth subsequent billing month following the effective period stated on Attachment A.

* Excluded rate and rider schedules are listed on Attachment A.
