Re: 2015 Integrated Resource Planning (“IRP”) Process for Entergy
Louisiana, LLC and Entergy Gulf States Louisiana, L.L.C. Pursuant to the
General Order Dated April 20, 2012
LPSC Docket No. I-33014

Dear Ms. Bordelon:

On behalf of Entergy Louisiana, LLC and Entergy Gulf States Louisiana, L.L.C. (collectively, the “Companies”), enclosed please find updates to the IRP inputs previously filed on February 28, 2014 which contain the following documents: (1) an HSPM CD containing the updates to the Excel workbook containing IRP inputs previously filed on February 28, 2014, which is being filed under seal and (2) the IRP Inputs Timeline & Status Report chart indicating when additional information and sensitivities would be provided to the stakeholders, previously filed April 1, 2014.

The HSPM Excel workbook contains additional inputs included since the previous filing. The chart has been updated to reflect that items 4, 5, 8, 9, 13, 14, and 17 are complete and the expected delivery dates for items 6, 16, 23, and 24 have been adjusted.

Please file this pleading in the record and return a date-stamped copy to me in the enclosed, self-addressed envelope. Stakeholder comments on these materials are due by May 15, 2014.

The HSPM CD containing updates to the IRP inputs is being provided to you under seal pursuant to the provisions of the LPSC General Order dated August 31, 1992, and Rules 12.1 and 26 of the Commission’s Rules of Practices and Procedures. Please retain one sealed copy of the HSPM Version for your files and return a date-stamped sealed copy to me in the enclosed, self-addressed envelope.

Ms. Terri Lemoine Bordelon

Note 1: There is also a graphical representation of the Reference Case in the 2/28/14 PowerPoint Presentation.

Note 2: In the December 20, 2013 Data Assumptions filing the results of a screening level analysis of a broad set of resource options and cost and performance information was provided from an April 2013 Technology Assessment. A comprehensive report of the 2012 Technology Assessment was published as part of the 2012 Entergy New Orleans IRP filing. It can be accessed at: http://www.entergy-neworleans.com/content/IRP/IRP_Technology_Assessment.pdf. An update of the Technology Assessment to support the EGSL/ELL IRP is currently under way with **results expected by the end of April 2014**. Results will be provided to stakeholders when the assessment is completed.
